Management's Responsibility

To the Ratepayers of Village of Frobisher:

The municipality’s management is responsible for the preparation and presentation of the accompanying financial statements in accordance with Canadian public sector accounting standards (PSAS). The preparation of the statements necessarily includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgments and estimates by management is required.

In discharging its responsibilities for the integrity and fair presentation of the financial statements, management designs and maintains the necessary accounting, budget and other related internal controls to provide reasonable assurance that transactions are appropriately authorized and accurately recorded, that assets are properly accounted for and safeguarded, and that financial records are properly maintained to provide reliable information for the preparation of the financial statements.

The Council is composed of elected officials who are neither management nor employees of the municipality. The Council is responsible for overseeing management in the performance of its financial reporting responsibilities. The Council fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with external auditors. The Council is also responsible for recommending the appointment of the municipality's external auditors.

MNP LLP, an independent firm of Chartered Professional Accountants, is appointed by the Council to audit the financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Council and management to discuss their audit findings.

Independent Auditors' Report

To the Mayor and Councillors of the Village of Frobisher:

Opinion

We have audited the financial statements of the Village of Frobisher (the "Municipality"), which comprise the statement of financial position as at December 31, 2024, and the statements of operations, change in net financial assets, and cash flow for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Municipality as at December 31, 2024, and the results of its operations and its cash flow for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Municipality in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Municipality's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Municipality or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Municipality's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Municipality's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Municipality's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Municipality to cease to continue as a
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. Significant accounting policies

The financial statements of the municipality have been prepared by management in accordance with Canadian public sector accounting standards (PSAS) as recommended by the Chartered Professional Accountants of Canada (CPA Canada). Significant aspects of the accounting policies adopted by the municipality are as follows:

a) **Basis of accounting:** The financial statements are prepared using the accrual basis of accounting. The accrual basis of accounting requires revenues to be recognized as they become available and measurable and expenses are recognized as they are incurred and measurable as a result of the receipt of goods and services and the creation of a legal obligation to pay.

b) **Reporting entity:** The financial statements consolidate the assets, liabilities and flow of resources of the municipality. The entity is comprised of all of the organizations that are owned or controlled by the municipality and are, therefore, accountable to the Council for the administration of their financial affairs and resources.

c) **Collection of funds for other authorities:** Collection of funds by the municipality for the school board, municipal hail and conservation and development authorities are collected and remitted in accordance with relevant legislation. The amounts collected are disclosed in note 4.

d) **Government transfers:** Government transfers are the transfer of assets from senior levels of government that are not the result of an exchange transaction, are not expected to be repaid in the future, or the result of a direct financial return. Government transfers are recognized as revenue in the period that the events giving rise to the transfer occur, providing:

a) the transfers are authorized
b) any eligibility criteria have been met; and
c) reasonable estimates of the amounts can be made.

Unearned government transfer amounts received will be recorded as deferred revenue.
Earned government transfer amounts not received will be recorded as an amount receivable.

e) **Other (non-government transfer) contributions:** Unrestricted contributions are recognized as revenue in the year received or in the year the funds are committed to the municipality if the amount can be reasonably estimated and collection is reasonably assured. Externally restricted contributions are contributions for which the contributor has placed restrictions on the use of the resources. Externally restricted contributions are deferred until the resources are used for the purpose specified, at which time the contributions are recognized as revenue. In-kind contributions are recorded at their fair value when they are received.

f) **Revenue recognition:**
Fees and charges and other revenue transactions with no performance obligation are recognized as revenue in the period in which the transactions or events giving rise to the revenues occurred.
Investment income is recognized as revenue when earned.

When a single transaction requires the delivery of more than one performance obligation, the revenue recognition criteria are applied to the separately identifiable performance obligations. A performance obligation is considered to be separately identified if the product or service delivered has stand-alone value to that customer and the fair value associated with the product or service can be measured reliably. The amount recognized as revenue for each performance obligation is its fair value in relation to the fair value of the contract as a whole.

1. Significant accounting policies - continued

For each performance obligation, the Municipality must ascertain whether the obligation is satisfied over a period of time, or at a point in time. In order to do this, the characteristics of the underlying goods and/or services must be considered in order to determine when the ultimate performance obligations will be satisfied. If any of the below criteria are met, the revenue must be recognized over a period of time; otherwise, corresponding amounts are to be recognized at a point in time.

a) The payor simultaneously receives and consumes the benefits provided by the Municipality's performance as they fulfil the performance obligation

b) The Municipality's performance creates or enhances an asset (for example, work in progress) that the payor controls or uses as the asset is created or enhanced

c) The Municipality's performance does not create an asset with an alternative use to itself, and the Municipality has an enforceable right to payment for performance completed to date

d) The Municipality is expected to continually maintain or support the transferred good or service under the terms of the agreement

e) The Municipality provides the payor with access to a specific good or service under the terms of the agreement

When determining the amounts of revenue to recognize at various stages along the point of time, determinants vary but often include percentage complete.

g) **Deferred revenue:** Fees and charges: Certain user charges and fees are collected for which the related services have yet to be performed. Revenue is recognized in the period when the related expenses are incurred or services performed.

h) **Local improvement charges:** Local improvement projects financed by frontage taxes recognize any prepayment charges as revenue in the period assessed.

i) **Net financial assets:** Net financial assets at the end of an accounting period are the net amount of financial assets less liabilities outstanding. Financial assets represent items such as cash and those other assets on hand which could provide resources to discharge existing liabilities or finance future operations. These include realizable assets which are convertible to cash and not intended for consumption in the normal course of operations.

j) **Non-financial assets:** Tangible capital and other non-financial assets are accounted for as assets by the government because they can be used to provide government services in future periods. These assets do not normally provide resources to discharge the liabilities of the government unless they are sold.

k) **Appropriated reserves:** Reserves are established at the discretion of Council to designate surplus for future operating and capital transactions. Amounts so designated are described on Schedule 8.

l) **Property tax revenue:** Property tax revenue is based on assessments determined in accordance with Saskatchewan Legislation and the formulas, principles, and rules in the Saskatchewan Assessment Manual. Tax mill rates are established annually by council following the guidance of the Government of Saskatchewan. Tax revenues are recognized when the tax has been authorized by bylaw and the taxable event has occurred. Requisitions operate as a flow through and are excluded from municipal revenue.

m) **Financial instruments:** Derivative and equity instruments that are quoted in an active market are carried at fair value. All other financial instruments are measured at cost/amortized cost; financial assets measured at amortized cost are recognized initially net of transaction costs with interest income recognized using the effective interest rate method. Impairment losses are recognized in the statement of operations when there is an other than temporary decline in value.

Interest and dividends attributable to financial instruments are reported in the statement of operations. Unrealized gains and losses are recognized in the statement of remeasurement gains and losses. When the investment is disposed of the accumulated gains or losses are reclassified to the statement of operations.

Measurement of Financial Instruments:

The municipalities financial assets and liabilities are measured as follows:

Financial Statement line item	Measurement
Cash and cash equivalents	Fair value
Investments	Amortized cost
Other accounts receivable	Amortized cost
Accounts payable and accrued liabilities	Amortized cost
Deposit liabilities	Amortized cost

1. Significant accounting policies - continued

n) **Tangible capital assets:** All tangible capital asset acquisitions or betterments made throughout the year are recorded at their acquisition cost. Initial costs for tangible capital assets that were acquired and developed prior to 2009 were obtained via historical cost information or using current fair market values discounted by a relevant deflation factor back to the point of acquisition. Donated tangible capital assets received are recorded at their fair market value at the date of contribution. The cost of these tangible capital assets less any residual value are amortized over the asset's useful life using the straight-line method of amortization. The tangible capital assets that are recognized at a nominal value are disclosed on Schedule 6. The municipality's tangible capital asset useful lives are estimated as follows:

Asset	***Useful Life***
General Assets	
Land	Indefinite
Land improvements	20 Years
Buildings	20 Years
Vehicles and equipment	
Vehicles	8 Years
Machinery and equipment	8 Years
Leased capital assets	Lease terms
Infrastructure Assets	
Infrastructure assets	
Infrastructure assets	40 Years
Water and sewer	40 Years
Road network assets	40 Years
Dugout	15 Years
Hydrants	25 Years

Government contributions: Government contributions for the acquisition of capital assets are reported as capital revenue and do not reduce the cost of the related asset.

Works of art and other unrecognized assets: Assets that have a historical or cultural significance, which include works of art, monuments and other cultural artifacts are not recognized as tangible capital assets because a reasonable estimate of future benefits associated with this property cannot be made.

Capitalization of interest: The municipality does not capitalize interest incurred while a tangible capital asset is under construction.

Leases: All leases are recorded on the financial statements as either a capital or operating lease. Any lease that transfers substantially all of the benefits and risk associated with the leased asset is classified as a capital lease and recorded as tangible capital assets. At the inception of a capital lease, an asset and a payment obligation are recorded at an amount equal to the lesser of the present value of the minimum lease payments and the asset's fair market value. Assets under capital lease are amortized on a straight line basis, over their estimated useful lives. Any other lease not meeting the before mentioned criteria is classified as an operating lease and rental payments are expensed as incurred.

o) **Employee benefit plans:** Contributions to the municipality's defined benefit plans are expensed when contributions are made. Under the defined benefit plan, the municipality's obligations are limited to their contributions.

1. Significant accounting policies - continued

p) **Measurement uncertainty:** The preparation of financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the period. Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary.

The measurement of materials and supplies are based on estimates of volume and quality. Amortization is based on the estimated useful lives of tangible capital assets.

The liability associated with asset retirement obligations are measured with reference to the best estimate of the amount required to ultimately remediate the liability at the financial statement date, the discount rate, and inflation.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in earnings in the periods in which they become known.

q) **Basis of segmentation/segment report:** The municipality follows the Public Sector Accounting Board's recommendations requiring financial information to be provided on a segmented basis. Municipal services have been segmented by grouping activities that have similar service objectives (by function). Revenues that are directly related to the costs of the function have been attributed to each segment. Interest is allocated to functions based on the purpose of specific borrowings.

The segments (functions) are as follows:

General Government: Provides for the administration of the municipality.
Protective Services: Comprised of expenses for police and fire protection.
Transportation Services: Responsible for the delivery of public works services related to the development and maintenance of roadway systems and street lighting.
Environmental and Public Health: The environmental segment provides waste disposal and other environmental services. The public health segment provides for expenses related to public health services in the municipality.
Planning and Development: Provides for neighbourhood development and sustainability.
Recreation and Culture: Provides for community services through the provision of recreation and leisure services.
Utility Services: Provides for delivery of water, collecting and treating of wastewater and providing collection and disposal of solid waste.

r) **Budget information**: Budget information is presented on a basis consistent with that used for actual results. The budget was approved by Council on May 21, 2024.

s) **Assets held for sale:** The Municipality is committed to selling the asset, the asset is in a condition to be sold, the asset is publicly seen to be for sale, there is an active market for the asset, there is a plan in place for selling the asset and the sale is reasonably anticipated to be completed within one year of the financial statement date.

1. Significant accounting policies - continued

t) **Asset retirement obligation:** Asset Retirement Obligations represent the legal obligations associated with the retirement of a tangible capital asset that result from its acquisition, construction, development, or normal use. The tangible assets include but are not limited to assets in productive use, assets no longer in productive use, leased tangible capital assets.

The liability associated with an asset retirement obligation is measured with reference to the best estimate of the amount required to ultimately remediate the liability at the financial statement date to the extent that all recognition criteria are met. Asset retirement obligations are only recognized when there is a legal obligation for the municipality to incur costs in relation to a specific TCA, when the past transaction or event causing the liability has already occurred, when economic benefits will need to be given up in order to remediate the liability and when a reasonable estimate of such amount can be made. The best estimate of the liability includes all costs directly attributable to the remediation of the asset retirement obligation, based on the most reliable information that is available as at the applicable reporting date. Where cash flows are expected over future periods, the liability is recognized using a present value technique.

When a liability for an asset retirement obligation is initially recognized, a corresponding adjustment to the related tangible capital asset is also recognized. Through the passage of time in subsequent reporting periods, the carrying value of the liability is adjusted to reflect accretion expenses incurred in the current period. This expense ensures that the time value of money is considered when recognizing outstanding liabilities at each reporting date. The capitalized asset retirement cost within tangible capital assets is also simultaneously depreciated on the same basis as the underlying asset to which it relates.

At remediation, the municipality derecognizes the liability that was established. In some circumstances, gains or losses may be incurred upon settlement related to the ongoing measurement of the liability and corresponding estimates that were made and are recognized in the statement of operations.

u) **New Accounting Policies Adopted During the Year:**
PS 3400 Revenue, a new standard establishing guidance on how to account for and report on revenue. The standard provides a framework for recognizing, measuring and reporting revenues that arise from transactions that include performance obligations and transactions that do not have performance obligations. Performance obligations are enforceable promises to provide specific goods or services to a specific payer. This section has been applied prospectively and has had no impact on the financial statements.

2. Cash and temporary investments

	2024	2023
Cash	**221,773**	237,572
Total cash and cash equivalents	**221,773**	237,572

Cash and cash equivalents includes balances with banks and short-term deposits with maturities of three months or less.

As at December 31, 2024, the Municipality had a line of credit available to a maximum of $60,000 (2023 - $60,000), bearing interest at 5.95% (2023 - 7.70%), $nil (2023 - $nil) of which was drawn.

3. Investments

	2024	2023
Investments carried at amortized cost:		
Affinity Credit Union shares	**15**	15
Southern Plains Co-operative Ltd. shares	**2,274**	2,236
Short-term notes and deposits	**116,000**	100,000
Total investments	**118,289**	102,251

Short-term notes and deposits are with Affinity Credit Union and have effective interest rates at 3.90% and 5.25% (2023 - 5.20%), maturing January and October 2025 (2023 - October 2024).

Investment income	**2024**	2023
Interest	**9,948**	5,284

7. Deferred revenue	**2024**	2023
Canada Community Building Fund (CCBF)	**3,874**	8,701
Total deferred revenue	**3,874**	8,701

8. Asset retirement obligation

	2024	2023
Balance, beginning of the year	**352,077**	328,430
Accretion expense	**27,272**	23,647
Liabilities settled	**(10,543)**	-
Estimated total liability	**368,806**	352,077

The Municipality owns two buildings which may contain asbestos, and therefore, the Municipality is legally required to perform abatement activities upon renovation or demolition of this asset. Abatement activities include handling and disposing of the asbestos in a prescribed manner when it is disturbed. Undiscounted future cash flows expected are a demolition cost in 2044 of $118,586 (2023 - $145,230). The estimated total liability of $43,266 (2023 - $33,726) is based on the sum of discounted future cash flows for abatement activities using a discount rate of 5.45% (2023 - 7.20%) and assuming annual inflation of 1.80% (2023 - 2.70%). The municipality has not designated funds for settling the abatement activities.

The Municipality owns and operates utility infrastructure including wells and lagoons that have an estimated useful life of 40 years. The Municipality is legally required to perform closure and post-closure activities at the end of its useful life. The assets are amortized over this period using the straight-line method. In accordance with PS 3280, Asset Retirement Obligations, the Municipality recognized an asset retirement obligation in the amount of $325,540 (2023 - $318,351). This balance was derived from an estimated undiscounted future remediation expenditure of $316,277 (2023 - $329,189), expected to be incurred immediately to 15 years (2023 - immediately to 16 years). The associated discount rate applied was 5.45% (2023 - 7.20%) which represents prime rate at December 31, 2024. The above table describes all changes to the aforementioned ARO liability.

9. Long-term debt

The debt limit of the municipality is $237,374 (2023 - $234,056). The debt limit for a municipality is the total amount of the municipality's own source revenues for the preceding year (the Municipalities Act section 161).

10. Pension plan

The Municipality is an employer member of the Municipal Employee Pension Plan (MEPP), which is a multiemployer defined benefit pension plan. The Commission of MEPP, representing plan member employers, is responsible for overseeing the management of the pension plan, including investment of assets and administration of benefits. The municipality's pension expense in 2024 was $5,073 (2023 - $4,626). The benefits accrued to the municipality's employees from MEPP are calculated using the following: pensionable years of service, highest average salary, and the plan accrual rate.

Total current service contributions by the municipality to the MEPP in 2024 were $5,073 (2023 - $4,626).
At December 31, 2023, the MEPP disclosed an actuarial surplus of $744,391,000 (2022 - $704,877,000). The December 2024 MEPP is not yet disclosed.
For further information on the amount of MEPP surplus information see: https://mepp.peba.ca/fund-information/plan-reporting.

11. Risk management

It is management's opinion that the Municipality is not exposed to significant credit, interest, exchange or liquidity risks arising from these financial statements.
